FREE GUIDE STEP-BY-STEP METHOD

# Create your *first book* with AI

Coloring, journals, puzzles, humor, how-to guides: a simple method to **pick the right book**, **create it with AI** and **put it on sale on Amazon**.

**$0** **To publish**
on Amazon KDP, no inventory

**6** **Book types**
compared so you pick well

**10** **Prompts**
ready to copy and adapt

**7 days** **Action plan**
from idea to live listing

YOUR RESULT

# A book ready to publish, *in 7 days.*

By the end of this guide, you will have chosen **your type of book**, built a **precise concept**, created the **content with AI** and prepared your **Amazon listing**.

PHASE 1

STEPS 1–2

## Pick the right book

You compare 6 types of books, then find a precise niche that buyers are already searching for on Amazon.

PHASE 2

STEPS 3–4

## Create it with AI

You build the page-by-page plan, then create the content with prompts that keep a consistent style.

PHASE 3

STEP 5

## Put it on sale

You prepare the title, description and keywords, check everything and publish on KDP.

!

**READ BEFORE YOU START**

This guide promises **no income**. It gives you a concrete method to create a real, quality book. Sales depend on the topic, the cover, the listing and the time you put in.

THE MODEL

# How a book *makes you money*

With Amazon KDP print-on-demand, you pay **nothing upfront**: no inventory, no printer, no shipping.

**01**
**You create 2 files**
An interior PDF and a cover PDF.

**02**
**You publish on KDP**
For free, from your computer.

**03**
**A customer orders**
On Amazon, in several countries.

**04**
**Amazon prints and ships**
One copy at a time: no inventory, no parcels.

**05**
**You earn a royalty**
On every copy sold.

## A worked *example*

PAPERBACK · 100 PAGES B&W

| LIST PRICE | ROYALTY RATE | YOUR SHARE | − PRINTING | = FOR YOU |
|---|---|---|---|---|
| **$9.99** | 60% | $5.99 | $2.30 | $3.69 |
| **$9.98** | 50% | $4.99 | $2.30 | $2.69 |
| **$6.99** | 50% | $3.50 | $2.30 | $1.20 |

Simplified example: black-and-white paperback, standard trim, sold on Amazon.com, before taxes. Check rates and printing costs in the KDP calculator when you set your price.

★ **THE PRICING TRAP**

One cent changes everything: below $9.99, the rate drops from 60% to 50%. **Set your price knowing this threshold.**

i **THE REAL VARIABLE**

A book does not sell itself. The **topic**, the **cover** and the **listing** make the difference: that is what the next steps are about.

BEFORE STEP 1

# Pick your *type of book*

Not every book takes the same work. For a first book, aim for a format you can **finish** in a week.

| TYPE | EXAMPLE | WHAT AI DOES | WHAT YOU BRING | EFFORT |
|---|---|---|---|---|
| **Coloring** | Cozy cats & cafés, nature mandalas | Line-art illustrations | The theme, curation, clean-up | ● ○ ○ |
| **Journal / guided notebook** | Gratitude, travel, reading | Prompts, structure | The angle, the layout | ● ○ ○ |
| **Humor / gift** | "If my cat were a manager..." | Gag ideas, illustrations | Your sense of humor, picking the best ideas | ● ● ○ |
| **Activities & puzzles** | Seek-and-find, mazes | Themes, instructions, illustrations | Exact grids, checking the answers | ● ● ○ |
| **Short how-to guide** | Recipes, mini-method | Outline, first draft | Your expertise, fact-checking | ● ● ● |
| **Illustrated kids' book** | Bedtime story, 24 pages | Story, illustrations | Character consistency, proofreading | ● ● ● |

✓ **MY ADVICE**

First book? Start with a **coloring book**, a **guided journal** or a **humor book**: they are the quickest to finish properly.

i **LOW-CONTENT**

Notebooks with repetitive pages (planners, lined journals) count as **low-content** books for Amazon. Coloring and activity books generally do not. Classify your book by its actual content.

**AI** AI saves you a huge amount of time on creation. But it does not choose your topic and it does not replace your proofreading: **that is where the quality of your book is decided.**

# 01

STEP 01

# Find a niche that sells

A niche is a precise audience with a precise need. AI suggests ideas; Amazon tells you whether people buy them.

ON AMAZON · 10 MINUTES

- Type your idea into the search bar: the **autocomplete suggestions** show what people are searching for.
- Open the top 10 books and note their **Best Sellers Rank**: the lower the number, the better the book sells.
- Read the **2- and 3-star reviews**: what buyers are missing is your opportunity.

THE RIGHT SIGNAL

Several books on the topic **sell well**, but their covers or reviews show you could **do better**. Neither a desert nor a market saturated by big players.

## 01 Find niche ideas

Paste it into ChatGPT, Claude or the AI of your choice.

PROMPT 01 · COPY & ADAPT

COPY ⧉

```
Act as a market analyst specializing in print books sold on Amazon KDP.
I want to create a [TYPE OF BOOK] for [AUDIENCE, or "to be defined"].

Suggest 15 precise niche ideas. For each one, give: the exact audience, the buying
occasion (gift, personal use, season…), the book's promise, what would make it different,
and 3 phrases a buyer would type into the Amazon search bar.

Rules: avoid niches that are too broad ("mandalas", "lined notebook"), no brands, no
protected characters or franchises. Rank the ideas from most precise to broadest.
```

TIP · AI cannot see Amazon's real sales. Keep its 3 best ideas and check them with the method above.

YOUR PROGRESS · YOUR BOOK IN 5 STEPS

| 01 | 02 | 03 | 04 | 05 |
|---|---|---|---|---|
| NICHE | CONCEPT | PLAN | CONTENT | PUBLISH |

# 02

STEP 02

# Build a precise concept

A good concept fits in one sentence. If it takes three to explain, it is still too vague.

**AUDIENCE + OCCASION + PROMISE + DIFFERENCE**

This formula rules out vague ideas like “a notebook for everyone”.

**AUDIENCE**

New parents, first baby

**OCCASION**

Baby shower gift

**PROMISE**

Capture the first year in 5 minutes a week

**DIFFERENCE**

One page per week, with a funny question and a photo

## Your concept *in one sentence*

FILL IN

I am creating a _____ for _____, to give or use when _____, that helps them _____, and stands out by _____.

02

## Challenge your concept

Ask for honest feedback before you invest your time.

PROMPT 02 · COPY & ADAPT

COPY ⧉

```
Here is my book concept: [YOUR CONCEPT IN ONE SENTENCE].
Act as a demanding editor:
1. Tell me whether the audience is precise enough, and why.
2. Suggest 3 more distinctive angles.
3. List the 3 main risks (competition, buyer expectations, feasibility with AI).
4. Rewrite my concept as one clear sentence.
Be honest, even if the idea is weak.
```

YOUR PROGRESS · YOUR BOOK IN 5 STEPS

| ✓ NICHE | 02 CONCEPT | 03 PLAN | 04 CONTENT | 05 PUBLISH |
|---|---|---|---|---|

# 03

STEP 03

# Plan the book page by page

The plan is your flat plan. It keeps you from getting lost along the way and makes creation much faster.

03

## The complete flat plan

Your plan becomes the basis for every prompt that follows.

PROMPT 03 · COPY & ADAPT

COPY ⧉

```
Create the complete plan for a [NUMBER]-page [TYPE OF BOOK] for [AUDIENCE], based on this concept: [CONCEPT].

Give a page-by-page flat plan: title page, copyright page, introduction or how-to-use page, every content page (title and short description of each page), and a closing page (thank-you and invitation to leave a review).

Keep a logical progression, from simplest to richest, with enough variety to avoid repetition. Present the result as a table: page no. | type | content.
```

**24**

**Pages minimum**

For a KDP paperback.

**24–108**

**Same printing cost**

$2.30 in black and white, standard trim.

**1**

**Approved plan**

Before you create a single page.

★

GOOD HABIT

Read the plan like a buyer: does every page add something? **Cut the filler pages**, they are what earns bad reviews.

YOUR PROGRESS · YOUR BOOK IN 5 STEPS

| ✓ NICHE | ✓ CONCEPT | 03 PLAN | 04 CONTENT | 05 PUBLISH |
|---|---|---|---|---|

# 04

STEP 04

# Create the content with AI

One prompt per type of content. Create one page or section at a time, then review before moving on.

## 04 Write a text

How-to guides, humor, kids' books, journal introductions.

PROMPT 04 · COPY & ADAPT — COPY ⧉

```
You are an author specializing in [GENRE]. Write section [NO. AND TITLE] of my book, based on this plan: [PASTE THE PLAN].
Audience: [AUDIENCE]. Tone: [warm, funny, direct…]. Length: [NUMBER] words.

Rules: short sentences, concrete examples, no made-up information. If a fact needs checking, flag it with [TO CHECK]. Do not end with a generic summary.
```

TIP · For a how-to guide, your experience is what gives the book its value. Give the AI your notes, your examples, your method: do not ask it to make things up.

## 05 Consistent illustrations

Coloring, humor, kids' books: keep the same "style" block for the whole series.

PROMPT 05 · COPY & ADAPT — COPY ⧉

```
Fixed style, identical for every image: [e.g. black line art on white / soft watercolor / colorful vector], palette [COLORS], detail level [LOW / MEDIUM / HIGH], portrait framing, safe margins.

Image: [PRECISE SCENE], with [RECURRING CHARACTER OR ELEMENT, described precisely].

Not allowed: no text, no logos, no signatures, no protected characters, no recognizable artist's style, nothing cut off at the edge.
```

YOUR PROGRESS · YOUR BOOK IN 5 STEPS

| ✓ NICHE | ✓ CONCEPT | ✓ PLAN | 04 CONTENT | 05 PUBLISH |
|---|---|---|---|---|

STEP 04 · CONTINUED

# Puzzles, journals *and fixes*

## 06 Activities and puzzles

Activity books for kids or adults.

PROMPT 06 · COPY & ADAPT — COPY ⧉

```
Create [NUMBER] activities for a puzzle book for [AGE / AUDIENCE], on the theme [THEME].
Vary the formats: [seek-and-find, mazes, riddles, dot-to-dot…].
For each activity: a title, a one-sentence age-appropriate instruction, the list of elements to include and the answer. Make the difficulty increase from the start to the end of the book.
```

TIP · For exact grids (word searches, sudoku, mazes), use a dedicated generator: image AIs draw grids badly. Always check the answers.

## 07 Guided journal prompts

Gratitude, travel, reading, baby journals...

PROMPT 07 · COPY & ADAPT — COPY ⧉

```
Create [NUMBER] prompts for a guided journal for [AUDIENCE], on the theme [THEME].
The prompts are short, concrete and varied (memories, feelings, plans, gratitude…) and progress through the pages. Add 4 special pages (beginning, middle, end) with a slightly longer exercise. Avoid clichés and overly general questions.
```

FIX-IT SENTENCE · WORKS WITH EVERY PROMPT — COPY ⧉

```
Keep exactly the same style and structure. Only fix [PRECISE PROBLEM]. Do not change anything else.
```

STEP 05

# 05 Prepare the cover and the Amazon listing

On Amazon, people judge a thumbnail first, then a title, then a description. All three must say the same thing.

## 08 Title and subtitle

Pick one, then check it does not already exist on Amazon.

PROMPT 08 · COPY & ADAPT — COPY ⧉

```
Suggest 10 titles and subtitles for my book: [CONCEPT].
The title is short and clear. The subtitle states the audience and the promise, naturally including 1 or 2 phrases a buyer would type. No exaggerated promises, no brands, no famous author names.
```

## 09 The Amazon description

It must answer one question: “is this for me?”

PROMPT 09 · COPY & ADAPT — COPY ⧉

```
Write the Amazon description for my book [TITLE + SUBTITLE] for [AUDIENCE].
Structure: an opening sentence that makes people want it, what the book contains (short list), who it is ideal for (gift, use), then the specs (trim size, page count). 150 to 200 words. No false promises, no made-up reviews, no comparison with another author.
```

## 10 The 7 KDP keywords

These fields are hidden, but valuable for being found.

PROMPT 10 · COPY & ADAPT — COPY ⧉

```
Suggest 7 keyword groups for the 7 KDP keyword fields of my book [TITLE].
Each group contains phrases a buyer would type, without repeating words from the title, with no brands or author names. Then suggest 3 relevant Amazon categories.
```

TIP · Cover: a title readable even at thumbnail size, one strong image, 3 colors max. For exact dimensions, use the KDP cover calculator: they depend on page count and paper type.

YOUR PROGRESS · YOUR BOOK IN 5 STEPS

| ✓ NICHE | ✓ CONCEPT | ✓ PLAN | ✓ CONTENT | 05 PUBLISH |
|---|---|---|---|---|

BEFORE YOU CLICK PUBLISH

# Checks *and KDP rules*

A rejected or badly reviewed book costs you more than twenty minutes of checking.

FINAL CHECKLIST

- [ ] The content is original: no brands, no characters, no copied text.
- [ ] Every page has been reviewed, text and images.
- [ ] Images are 300 DPI, with nothing cut off.
- [ ] Margins and bleed meet KDP standards.
- [ ] Title, cover and listing say exactly the same thing.
- [ ] AI-generated content is disclosed when publishing.
- [ ] The KDP previewer has been checked page by page.
- [ ] A paper proof is ordered if possible.

**DISCLOSING AI**

Amazon asks you to **disclose AI-generated content**: text, images or translations. Content that is merely "AI-assisted" (you wrote it yourself and polished it with a tool) does not need to be disclosed.

CHECK IN THE OFFICIAL KDP HELP

- Rules on AI-generated content
- Trim sizes, margins and bleed
- Cover and royalty calculators
- Definition of low-content books

ACTION PLAN

# Your book *in 7 days*

One to two hours a day is enough for a simple first book. What matters most: **finish**, then improve.

| DAY | GOAL | DELIVERABLE | PROMPTS |
|---|---|---|---|
| D1 | **Pick the type and the niche** | 3 niches checked on Amazon | 01 |
| D2 | **Concept and plan** | One-sentence concept, flat plan | 02 · 03 |
| D3 | **Create the content (1/2)** | Half of the pages | 04 TO 07 |
| D4 | **Create the content (2/2)** | All pages, reviewed | 04 TO 07 |
| D5 | **Layout** | Interior PDF meeting KDP standards | — |
| D6 | **Cover and listing** | Cover PDF, title, description, keywords | 08 · 09 · 10 |
| D7 | **Checks and publishing** | Preview approved, book submitted | CHECKLIST |

i

**LONGER BOOKS**

A how-to guide or a kids' book will often take more than 7 days. Keep the **same order** and give days 3 and 4 more time.

★

**THINK IN SERIES**

Your first book is a learning experience. The second will go **twice as fast**, because your prompts and checklist will be ready.

1

**YOUR GOAL**

One published book, clean and honest, **is worth more than ten projects started.**

KDP EXPRESS KIT LEVEL UP

# From your idea to a finished book *with no technical mistakes.*

The **KDP Express Launch Kit** guides you through the trickiest part: the files, the specs and going live. Designed for illustrated print books: coloring, activity books, journals.

- ✓ 10 advanced prompts for a consistent visual direction
- ✓ KDP technical specs: margins, bleed, 300 DPI
- ✓ The exact flat plan of a 100-page book
- ✓ The 15-step checklist before you click Publish
